Projects Page

Test Scenario 8 - Test each future project has a link that currently does not lead anywhere.

The computer screen icon and the Githun icon both change the cursor to a finger but do not link to anywhere yet because those projects have not been created.

Contact Page

Test Scenario 8 - Test the Name and Email fields are filled in with the correct type of information (the email address field is set up for an email) on the contact page before the form will submit.

Test Scenario 9 - Does the submit button on the contact page email the details? – *No because it needs some java conde behind it.*

Transition from Desktop to Mobile

Test Scenario 10

Do the pages flow smoothly on a mobile device?

Due to how I set up the pages, each page has to be selected from the 'hamburger' menu drop down.

Does the content look clean and readable, and does it fit well in the mobile device screen?

The items all realign and justify dependant on the screen size available
